

SECTION 1: Identification of the substance/mixture and of the company/undertaking	
1.1	Product identifier
	Name: Seal-it 730 Woodbond D3
	CAS number: not applicable
	Registration number: not applicable
1.2	Relevant identified uses of the substance or mixture and uses advised against
	Identified uses: glue, putty
	Uses advised against: use the product only according to the identified uses
1.3	Details of the supplier of the safety data sheet
	Supplier: Connect Products B.V.
	Address: Duurzaamheidsring 220, 4231 EX, Meerker The Netherlands
	Telephone: +31 (0) 183 731 400
	Email: info@connectproducts.nl
	Responsible person: Connect Products B.V. info@connectproducts.nl +31 (0) 183 731 400
1.4	Emergency telephone number
	Call your national emergency center. Universal emergency telephone number EU: 112
SECTION 2: Hazards identification	
2.1	Classification of the substance or mixture
	Classification 1272/2008 CLP: The mixture is not classified as dangerous
2.2	Label elements
	Hazard pictogram: not applicable
	Signal word: not applicable
	Hazard statement: not applicable
	Precautionary statements: EUH208 Contains chlormethylisothiazolinon and methylisothiazolinon (3:1). May produce an allergic reaction. EUH210 Safety data sheet available on request.
	Contains reaction mass of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one in a 3:1 ratio as preservatives for products during storage according to Regulation (EU) No. 528/ 2012/EC, Article 58(3).
2.3	Other hazards
	The mixture is not assessed as PBT or vPvB.
SECTION 3: Composition/information on ingredients	
3.1	Substances
	Not applicable
3.2	Mixtures
	Characteristics: Polyvinyl acetate (Dispersion in water) The mixture does not contain dangerous components above the limits set for inclusion in the BL.
SECTION 4: First aid measures	
4.1	Description of first aid measures
	If you do not feel well after exposure or if the problem persists, seek medical attention. If unconscious, place in recovery position and get medical attention.
	Inhalation: Take victim to fresh air, keep calm and warm. Seek medical attention if problems occur.
	Skin contact: Wash affected skin with soap and water. Consult a doctor for persistent problems.
	Eye contact: Rinse open eyes for several minutes under running water. If the problem persists, consult a specialist.

	Ingestion:	Do not induce vomiting. Rinse mouth with water. Get medical attention.
4.2	Most important symptoms and effects, both acute and delayed Eye contact: molten product may cause burns. Inhalation: vapors produced at elevated temperatures can be irritating. Skin contact: molten product may cause burns. Ingestion: may cause gastrointestinal blockage	
4.3	Indication of any immediate medical attention and special treatment needed Based on the physical properties, mechanical irritations are possible. The product may lead to clumping in the digestive tract. We recommend medical treatment. Depending on the symptoms, it is necessary to take intensive measures. Follow the additional toxicological information in Section 11.	
SECTION 5: Firefighting measures		
5.1	Extinguishing media	
	Suitable extinguishing media:	CO ₂ , extinguishing powder, alcohol-resistant extinguishing foam, water mist
	Unsuitable extinguishing media:	Full stream of water
5.2	Special hazards arising from the substance or mixture Adapt firefighting measures to the surrounding fire. In case of combustion, the evolution of dangerous gases is possible: carbon monoxide (CO), carbon dioxide (CO ₂) and other dangerous gases. Inhalation of hazardous decomposition products can cause serious damage to health. In case of lack of oxygen: acetic acid.	
5.3	Advice for firefighters Complete protective equipment for firefighters. Use water mist or water spray to cool surfaces exposed to fire.	
SECTION 6: Accidental release measures		
6.1	Personal precautions, protective equipment and emergency procedures Restrict access of unauthorized persons to the accident area until the accident is eliminated. Ensure adequate ventilation. Eliminate sources of ignition. Avoid contact with skin and eyes. Use personal protective equipment.	
6.2	Environmental precautions In case of accidental release of the substance or mixture, prevent penetration into sewers, surface and underground water. In case of entry into a sewer or water course, inform the relevant authorities.	
6.3	Methods and material for containment and cleaning up Remove mechanically and dispose of according to regulations. For smaller quantities: Remove with a liquid-binding material, e.g. diatomaceous earth. Dam off the larger amount and pump it into suitable containers. Hand over to a person authorized to dispose of waste. Dispose of waste in accordance with the Waste Act.	
6.4	Reference to other sections Section 8 and 13.	
SECTION 7: Handling and storage		
7.1	Precautions for safe handling Ensure good ventilation in the workplace. Use personal protective equipment (see section 8). Avoid contact with eyes and skin. Do not drink, eat or smoke while using the product. Wash your hands after use. The spilled substance causes an increased risk of slipping.	
7.2	Conditions for safe storage, including any incompatibilities Store in closed containers in a dry, cool, well-ventilated place. Do not eat, drink or smoke in places where the product is stored and used. Protect from direct sunlight. Keep away from sources of heat and ignition. Do not store together with food, drinks and feed. Protect from frost.	
7.3	Specific end use(s) Information is not available	
SECTION 8: Exposure controls/personal protection		
8.1	Control parameters No available data.	

8.2	Exposure controls	Ensure adequate ventilation. Ensure that persons using personal protective equipment work with the product. Do not eat, drink or smoke while working. The monitoring procedure for the content of substances in workplace air and the specification of protective equipment is determined by the worker responsible for occupational safety and health protection of workers.
	<i>Individual protection measures, such as personal protective equipment</i>	
	Respiratory protection:	It is not required under normal conditions of use.
	Eye protection:	Wear safety glasses if there is a risk of eye contact
	Hand protection:	Rubber protective gloves are recommended. Consult the glove manufacturer for the selection of gloves
	Skin protection:	Protective work clothing

Environmental exposure controls Prevent release to the soil and water.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance:	Liquid
Form:	Dispersion
Color:	White
Odour:	Slightly acidic
pH:	2,5 - 3,5 (43 %)
Melting / freezing point (°C):	0 °C at 1013 hPa
Boiling point (°C):	100 °C at 1013 hPa
Flash point (°C):	Information is not available
Flammability:	Information is not available
Limits of explosiveness or flammability: upper:	Information is not available
lower:	Information is not available
Vapour pressure	23 hPa / 20 °C
Vapour density	Information is not available
Relative density	1,1 (21 °C) (Water / 4 °C = 1,00)
Density	1,1 g/cm ³ (21 °C)
Solubility in water	Information is not available
N-octanol/water division ratio:	Information is not available
Autoignition point:	Information is not available
Breakdown point:	Information is not available
Viscosity dynamic	8000 - 18000 mPa.s at 23 °C
Particle characteristics:	Information is not available

9.2 Other information

Information is not available

SECTION 10: Stability and reactivity

10.1 Reactivity

The product is not reactive under normal conditions.

10.2 Chemical stability

The product is stable under normal conditions.

10.3 Possibility of hazardous reactions

No hazardous reactions are occur under recommended storage and handling conditions.

10.4	Conditions to avoid Protect from frost									
10.5	Incompatible materials Not known									
10.6	Hazardous decomposition products When stored and handled according to the prescription: none known. Acetic acid at elevated temperature									
SECTION 11: Toxicological information										
11.1	Information on hazard classes as defined in Regulation (EC) No 1272/2008									
	<p>a) Acute toxicity Based on available data, the classification criteria are not met. Oral: LD50: > 2000 mg/kg (rat), OECD 423</p> <p>b) Skin corrosion/irritation Based on available data, the classification criteria are not met.</p> <p>c) Serious eye damage/irritation Based on available data, the classification criteria are not met.</p> <p>d) Respiratory or skin sensitisation Based on available data, the classification criteria are not met.</p> <p>e) Germ cell mutagenicity Based on available data, the classification criteria are not met.</p> <p>f) Carcinogenicity Based on available data, the classification criteria are not met.</p>									
	<p>g) Reproductive toxicity Based on available data, the classification criteria are not met.</p> <p>h) STOT-single exposure Based on available data, the classification criteria are not met.</p> <p>i) STOT-repeated exposure Based on available data, the classification criteria are not met.</p> <p>j) Aspiration hazard Based on available data, the classification criteria are not met.</p>									
11.2	Information on other hazards Information is not available									
SECTION 12: Ecological information										
12.1	<p>Toxicity The substance is not classified as dangerous for aquatic organisms. According to current experience, no negative effects are expected in wastewater treatment plants.</p> <table border="1"> <tr> <td>LC50: > 100 mg/l</td> <td>Oncorhynchus mykiss (Rainbow trout) (96 h)</td> <td>OECD 203</td> </tr> <tr> <td>EC50: > 1000 mg/l</td> <td>Daphnia magna (pearl big) (48 h)</td> <td>OECD 202</td> </tr> <tr> <td>EC10: > 1000 mg/l</td> <td>sludge activated (0,5 h)</td> <td>-</td> </tr> </table>	LC50: > 100 mg/l	Oncorhynchus mykiss (Rainbow trout) (96 h)	OECD 203	EC50: > 1000 mg/l	Daphnia magna (pearl big) (48 h)	OECD 202	EC10: > 1000 mg/l	sludge activated (0,5 h)	-
LC50: > 100 mg/l	Oncorhynchus mykiss (Rainbow trout) (96 h)	OECD 203								
EC50: > 1000 mg/l	Daphnia magna (pearl big) (48 h)	OECD 202								
EC10: > 1000 mg/l	sludge activated (0,5 h)	-								
12.2	Persistence and degradability Polymer component: Not easily biodegradable. Elimination by adsorption on activated sludge. Separation can be done by flocculation									
12.3	Bioaccumulative potential No negative effects are expected									
12.4	Mobility in soil No negative effects are expected									

12.5	Results of PBT and vPvB assessment The substance is not assessed as PBT or vPvB.								
12.6	Endocrine disrupting properties The mixture does not contain components that cause disruption of the endocrine system.								
12.7	Other adverse effects Information is not available								
SECTION 13: Disposal considerations									
13.1	Waste treatment methods								
a)	Suitable methods for removing the mixture and contaminated packaging: Disposal according to regulations by incineration in a special waste incinerator. A smaller amount can be burned in a municipal waste incinerator. Observe local official regulations. Dispose of waste in accordance with local regulations. The packaging is emptied without residue (dripping, spilling, wiping with a squeegee). Packaging is preferably used for recycling or for further evaluation. Recommended cleaning agent: water								
b)	Specify the physical/chemical properties that may affect waste treatment options information is not available								
c)	Discourage sewage disposal information is not available								
d)	Identify, where appropriate, any special precautions for any recommended waste treatment option information is not available								
SECTION 14: Transport information									
14.1	The mixture is not a dangerous good for transport. UN number or ID number: -								
14.2	UN proper shipping name								
	<table border="1"> <tr> <td><i>Ground transportation ADR</i></td> <td rowspan="4">not applicable</td> </tr> <tr> <td><i>Railway transportation RID</i></td> </tr> <tr> <td><i>Naval transport IMDG:</i></td> </tr> <tr> <td><i>Air transport ICAO/IATA:</i></td> </tr> </table>	<i>Ground transportation ADR</i>	not applicable	<i>Railway transportation RID</i>	<i>Naval transport IMDG:</i>	<i>Air transport ICAO/IATA:</i>			
<i>Ground transportation ADR</i>	not applicable								
<i>Railway transportation RID</i>									
<i>Naval transport IMDG:</i>									
<i>Air transport ICAO/IATA:</i>									
14.3	Transport hazard class(es)								
	<table border="1"> <tr> <td><i>ADR</i></td> <td><i>RID</i></td> <td><i>IMDG:</i></td> <td><i>ICAO/IATA:</i></td> </tr> <tr> <td>-</td> <td>-</td> <td>-</td> <td>-</td> </tr> </table>	<i>ADR</i>	<i>RID</i>	<i>IMDG:</i>	<i>ICAO/IATA:</i>	-	-	-	-
<i>ADR</i>	<i>RID</i>	<i>IMDG:</i>	<i>ICAO/IATA:</i>						
-	-	-	-						
14.4	Packing group								
	<table border="1"> <tr> <td><i>ADR</i></td> <td><i>RID</i></td> <td><i>IMDG:</i></td> <td><i>ICAO/IATA:</i></td> </tr> <tr> <td>-</td> <td>-</td> <td>-</td> <td>-</td> </tr> </table>	<i>ADR</i>	<i>RID</i>	<i>IMDG:</i>	<i>ICAO/IATA:</i>	-	-	-	-
<i>ADR</i>	<i>RID</i>	<i>IMDG:</i>	<i>ICAO/IATA:</i>						
-	-	-	-						
14.5	Environmental hazards Mixture is not hazardous to the environment during transport.								
14.6	Special precautions for user Information is not available.								
14.7	Maritime transport in bulk according to IMO instruments Not applicable.								
SECTION 15: Regulatory information									
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixture Regulation (EC) No 1272/2008 CLP Regulation (EC) No 1907/2006 REACH National regulations on the waste and chemical mixtures								
15.2	Chemical safety assessment Not available.								
SECTION 16: Other information									

a)	Adaptation of the safety data sheet according to Regulation (EC) No. 1272/2008 and Regulation (EU) No. 878/2020.	
b)	List of abbreviations	
	DNEL	Derived No Effect Level
	PNEC	Predicted No Effect Concentration
	CLP	Regulation (EC) No 1272/2008
	REACH	Regulation (EC) No 1907/2006
	IMDG	International Code of Dangerous Goods
	IATA	International Air Transport Association
	ICAO	International Civil Aviation Organization
	ADR	European Agreement concerning the International carriage of dangerous goods by road
	RID	Regulation on the international transport of dangerous goods by rail
	Einecs	European Inventory of Existing Commercial Chemical Substances
	CAS	Chemical Abstracts Service
	PBT	persistent, bioaccumulative and toxic substance
	vPvB	very persistent a very bioaccumulation substance
	SDS	Safety data sheet
c)	Sources of information State legislation, documentation from the manufacturer	
d)	List of hazard statements not used	
e)	Instructions for training Training of work safety for handling with chemicals.	
f)	Other information The information in this safety data sheet correspond to the best knowledge of the product at the time of publication. This information is used for safer handling, storage, transportation and disposal of the product. This information does not guarantee the quality of the product. This information applies only to this material and is not valid if the product is used in combination with other materials or in a way which is not listed in this SDS.
